mr8 PRICES REASONABLE.

PUNGENT.

He was a little old man, with a restless black eye, and an equally restless jaw, the latter being constantly engaged in the mastication of "fine cut," while the former found business in more directions than there are points to the compass.

Iron-gray locks projected from under his slouched wool hat, and a beard of the same color straggled far down over the front of his blue woolen shirt.

His tongue was about as active as his eye; his voice was shrill and piercing: and all his assertions were of the most positive description.

He carried a small bundle in a handkerchief, and shortly after taking his seat in the cars at Reno for the East; he turned to the passengers nearest to him, and said:

"Boys, there are some curious ups and downs in this country. One day yon see a man's breeches half-soled with a flour sack, and the next he is a millionaire, rolling in his coach and four, lolling back and smoking a Havana cigar a foot long. There is a flip, a flap and a flop, and he is back into his old breeches, driving a bull team. Three days ago, I was not only well-to-do, but fixed for life, as I thonght; but bang she went, and I was flat on my back again. Not my fault—not a thing I could foresee and guard against—jist a reg'lar dispensation of Providence, as you may say. Never heard of sich a thing before in all my iife."

"Bottom drop out of yer mine?" asked a passenger.

"Mine be blowed! No; I had a ten-pin alley, and was doing a land office business—jist a coinin' money, as you say—when all went to smash in an instant."

"Burn out?" said a listener.

"Burn out! No; worse than that—blowed up!"

"Blowed up?"

"Yes, blowed up! It was the most terrific explosion, and one of the most furious you ever heard of. Some fellows came in one morning, to roll a game for the drinks. My Chinaman, Hop Sun, set up the pins for 'em. One of the men took up a ball—one of the biggest; he took a short run and let drive. I can see him now. The ball no sooner struck the alley than there was a report that shook the whole building, tore up the planks, and shattered the glass in the windows. Each bound made by the ball down along the alley was followed by the same kind of report, and the same kind of wreck and ruin. The ball reached the pins and made a "ten-strike," but at the same instant there came such an explosion as shook the whole town. All the pins were shivered to pieces, and splinters from them filled the walls and the roof. Nothing was left of my Chinaman but the soles of his shoes, about a foot of his tail, and a few strips of his cotton blouse. Not enough of him could be found for the coroner to set on—he was literally exterminated by the shower of splinters from the alley and pins."

"What caused the explosion?" asked some one.

"Well, you see, they had a certain kind of club in my town, that they wanted me to jine. I refused, tellin' 'em I wasn't qualified and couldn't conscientiously become a member. This got the club down on me, and some of 'em slipped into my place at night and greased my alley and all the pins and balls with nitro-glycerine. Blast sich a town as Austin, and sich an organization as the Sazerac Lyin' Club, anyhow! By their doin's I am ag'in a poor man ag'in a wanderer, roamin' the wide world without a dime. Will any gentleman present please let me have the price of a square meal and a night's lodgin'?"

A story is told of Mr. Florence which is just as true as the majority of its kind. When Billy was a youngster, he liked to go to the theatre, and as his papa was decidedly opposed to that sort of thing, Billy had to resort to the ways that are dark.

The old gentleman had a thorough knowledge of his boy's weakness, and was determined to modify his tastes. One bitterly cold night a bill of extraordinary attractiveness was offered. The father suspected Billy's intention to be one of the audience, and at the supper-table was prepared to issue special orders for the evening, but William was not present.

Incensed at the boy's absence, he resolved to catch him on his return home, and to trounce him well. He secured an instrument of torture, and parading in front of the street-door, awaited the culprit's approach.

An hour of rapidly increasing cold passed. Billy was on the alert; having espied the enemy, he scaled the fence and slipped up stairs. In a few minutes he was beneath the coverlet, wondering how much longer the old gentleman would be able to stand the bitter weather.

The father, benumbed, thought he would change his tactics, and re-entered the house to continue his vigils in front of Billy's chamber-door. After awhile he was astonished at hearing an unmistakable snore, and striking the whip upon the bedroom door, demanded to know who was within.

"Only me," drawled Master Innocence.

"You sir?"

"Yes sir," responded Billy; "and is that you, papa? You are ub late to-night. I hope you haven't been to any place of amusement?"

Nothing can exceed the real horrors of the Turkish war, unless it may be the pictures of them in the illustrated weeklies.

There is a man somewhere whose memory is so short that it only reaches to his knees, therefore he never pays for his boots.

A young lady says she longs for fingers like the prongs of a pitchfork, with diamond rings enough to fill them to the ends.

The first hours of slumber are the sweetest. If ever a man sleeps the sleep of the just, it is when he's just asleep.

A Brooklyn girl has been arrested for burglary. As if a young girl had no right to be out with her jimmy.

The mule is a musical animal. His voice has remarkable volume, and his hind legs are full of shoe fly.

The Czar to England—Who's been doing this fighting? Whose victory is this anyhow?

To the Greeks—It is well in most cases to begin the fight before the enemy is dead

BODIE MORNING NEWS

THURSDAY, - - MARCH 27, 1879.

THE BODIE MORNING NEWS has the largest circulation of any paper published in Mono County, and is being rapidly extended Advertisers will please note this fact.

C. W. CRANE, Room 10 Safe Deposit Building, has been appointed Agent for the Bodie Daily NEWS in San Francisco. All orders delivered to him or contracts made for SUBSCRIPTION or ADVERTISING will be recognized by the Publishers.

HOOLE & ELLIOTT.

ADDING FUEL TO THE FIRE.

The disgraceful and cowardly attack upon Denis Kearney at Santa Ana is only equaled by the systemized persecution of Democrats during the late unpleasantness, and can but result in adding legions to the Workingmen's standard. A crowd of brutal ruffians to beat and maim a helpless man for statements made on a public stand can have no weight in disproving them, but rather is *prima facie* evidence of their truth. True or false, claiming to be men, such a procedure was as disgraceful as it was unwarranted, and the instigators and abettors will be buried deep in their own degradation. We do not believe the Railroad Company had anything to do with this base outrage, but rather these fawning lick-spittles were endeavoring to curry their favor by an anxious willingness to strike down the leading spirit in the movement favoring the adoption of the Constitution. For ourselves, we will say, so far as the Constitution is concerned, there are engrafted in its provisions many serious, if not fatal, defects that should cause every voter to weigh well each section and satisfy himself that he is not fastening a chain to his neck that must drag our workingmen still lower in degradation and poverty. Take heed whilst there is yet time; let no political demagogues warp your judgment, but examine it with a careful, dispassionate eye, and there is no doubt, but upon such an examination, many will prefer "to live under the ills we have, than fly to others we know not of."

VIEWS OF A MEMBER.

The Inyo *Independent*, of the 22d instant, contains a lengthy speech made by Hon. P. Reddy, late member of the Constitutional Convention from Inyo county. The gentleman objects to the adoption of the Constitution as passed by the Convention, *in toto*. His speech was listened to by a large audience and, at its conclusion, the speaker was heartily applauded. Mr. Reddy said, in conclusion, that he had at no time offered an article, section or amendment, as they would have shared the fate of all the others not proposed by the so called Workingmen. He had remained continually on the defensive in order to the better protect his constituents. The gentleman is much respected among the people of Inyo county and has always been a leader of public opinion there, and his speech will, undoubtedly, have considerable effect upon the vote soon to be cast on the important question of adoption or rejection of the instrument as made. But we still believe the Constitution, good or bad, will be adopted.

THE San Francisco *Chronicle*, of the 24th instant, contains a list of newspapers, published in California, for and against the adoption of the Constitution. The figures are: For, 44; against, 53, with the Morning *Call* "on the fence."

THE NEWS would like to have a copy of the new Constitution.

"Dr." A. C. Farno, a noted character in Oakland, was arrested some weeks since, charged with perjury, and gave bonds for his freedom. On the 21st instant his bondsmen surrendered him to the law and he was taken in charge last evening and inclosed behind the bars in the County Jail. Shortly after his incarceration, between 7 and 8 o'clock, it was discovered that he had swallowed poison, which caused his death about 8 o'clock. The body was taken to the Oakland Morgue, where an inquest will be held to-day.

The San Francisco *Chronicle* of the 21st instant says:

On Thursday afternoon a fracas took place on Pine street between William Robinson and F. Marriott, Jr., one of the publishers of the *News Letter*, growing out of some reflections published in the paper mentioned upon the action of Crittenden Robinson, William Robinson (his brother) and a Mr. Allsop at the pigeon tournament at Millbrae on February 22d. There were several blows struck, and no arrests.

At Bakersfield, yesterday, W. J. Yoakum was sentenced to be hanged May 9th, for the murder of William Johnson.

EASTERN NEWS ITEMS.

NEW YORK, March 25.—The *World* prints what is called a plausable rumor, that Princess Louise and the Marquis of Lorne are to hire a cottage for the season at Newport.

Nearly all the walking contests in town yesterday was stopped by the police as illegal. Many arrests were made, chiefly for violation of the excise law.

Governor Fremont is extremely enthusiastic concerning the Territory of Arizona. He talks of its wonderful mineral wealth, its rich soil, its timber, its excellent grazing regions and its delightful climate with great pride. He thinks Tucson is to become the great railway station for business between this country and Mexico.

Marquis Tsing, the new Chinese Embassador to England and France, speaks and writes English fluently and has some knowledge of French. He has been accompanied to London by his wife and three children.

Charles Wing, a Chinaman 25 years old, was granted naturalization papers in the Court of Common Pleas, before Judge Larrimore, on Saturday. The applicant said he lived on Bayard street, was a cigar maker, had been in the country more than five years and in religion was an Episcopalian. Wong Lee, a brother Chinaman recently admitted to citizenship, was his witness.

Dr. John T. Crook, late of San Francisco, died here Saturday.

The *Herald* composing rooms were lighted by electricity last night as an experiment.

Talmage has secured the services of Rev. Dr. Spear as counsel in the trial which he begins to day at Clinton Street Church, Brooklyn. Feeling runs very high among the denominational brethren regarding his case. One of his leading friends says: "This trial is a jealous hunt of a great man by little ones. They can't get within gunshot of him mentally, so they seek to kill him ecclesiastically. They might as well bombard Gibraltar with thistledown. We believe the pastor to be square as a die and as straight as a string. If he wasn't he wouldn't suit us. In any event the Tabernacle will stand by him, Winter him, Summer him, and hold up his hands as long as God spares him. That settles it."

CLEVELAND, O., March 25.—A large crowd witnessed the finish at the Globe Theater of the long walk between Millieroze and Sergeant Zane, the latter carrying a eleven-pound musket. Both commenced walking February 24th—Millieroze to make 2,700 quarter miles in 2,700 quarter hours and Sergeant Zane to make 1,350 half miles in 1,350 half hours. Each accomplished the task at 11 to-night.

CHICAGO, March 25.—Two Chinamen lectured here yesterday. It is a well-known fact they are both attempting to make money out of their lectures, rather than to better the condition of their people or disseminate knowledge concerning the Celestials.

NEW YORK, March 25.—Pratt, the defaulting treasurer of the Reading Savings Bank of Massachusetts, disappeared last evening and no trace has yet been found of him. His defalcations probably aggregate $90,000. The bank has only $200 cash remaining.

LITTLE ROCK, March 25.—H. J. R. Webb of Newport, convicted of an attempted outrage on a deaf mute girl, was to-day committed to the Penitentiary under a sentence of twenty-one years.

BOSTON, March 25.—J. & A. Tyrrell, dealers in hides, have suspended. Liabilities, $160,000.

NEW ORLEANS, March 25.—The banks have resumed the payment of currency on demand.

Destructive Tornado in Georgia.

CHICAGO, March 25.—A *Times* Atlanta (Ga.) special says: Full reports of last night's destructive tornado are received. Hundreds of miles of fencing have been prostrated between Macon and Agusta, and cattle killed and outhouses, etc., destroyed. The storm came from the southwest and was several miles wide. At Milledgeville the destruction of property amounted to $100,000. The long wagon bridge across the Oconee river was blown down and a negro who was driving a four-mule team across it went down with it and was crushed on the shoals a hundred feet below. The total damage in five counties cannot be estimated.

Rev. Otis Gibson on the Chinese.

CHICAGO, March 25.—The Methodist ministers this morning heard Dr. Otis Gibson of San Francisco on the Chinese question. Among his statements were the following: He did not believe that the best people in California were prejudiced against the Chinese, who were simply political foot-balls. He did not know what California would do without them to gather fruit and grain. They were the best laborers there. Chinatown was a good, respectable neighborhood, and the mission there was doing good work, and had developed many excellent Christianized Chinese women. His mission had been persecuted by the anti-Chinese element, who had burned him in effigy and planned to attack the mission once, but was frustrated by the police. There was no virtual Chinese slavery. The Rev. Kallock, whose church had petitioned President Hayes to sign the restrictive bill, had been removed for cause from an Eastern church, and was now seeking political honors through the pulpit at the sand lots. They were probably Kearneyites who made the petition.

MINING NOTES.

Miners at Sixes River in Coos county, Oregon, are making good wages.

Seven claims on the Comstock call for assessments this month to the tune of $700,000.

A gold nugget weighing $210 was picked up by a miner, near Colfax, one day last week.

The Eureka (Nevada) mines pay more dividends at present than all the other mines on the coast.

All the mines being worked in Grant county, Oregon, are paying, and several veins of rich ore have recently been discovered.

In reporting to his manager, a Bingham (Utah) foreman writes: "I cannot tell which is the ore, but I am getting along well otherwise."

The newly discovered mines on Silver Creek in Josephine county, Oregon, have attracted a number of adventurers, notwithstanding bad weather and rough roads.

Forest Hill is now very busy. The miners are all at work, and the prospect of a fair water season, lasting until May, is very flattering. The late storm left plenty of snow in the mountains, and all the ditches are full.

The Bear Creek mines, situated on the head of Bear Creek, near Millville, Shasta county, are attracting attention, and many prospectors are making their way thither. The quartz is principally silver bearing, but considerable gold is also found.

Virginia *Enterprise:* Mining countries are always more or less subject to bring periodical distress to the very poor. It seems to be the nature of the business that a few shall get rich and the rest never receive anything but pay for their daily work. When that work is cut off, any other country is better than a mining country for a poor man.

A visit to a few of the extensive gravel mines in this vicinity develops the fact that extraordinary activity is being displayed by those engaged in hydraulic and tunnel mining operations. There is no stint of water at present, climatic conditions are favorable and miners seem disposed to make the most of their opportunity. A trip around among the mines and miners leaves the impression that that important branch of producing industry is in an encouragingly flourishing condition.—*Calaveras Chronicle.*

The Jacksonville (Oregon) *Times* of February 28th says: A three-ounce slug was found in McKnight & Co.'s diggings, on Foot Creek, the other day. A nugget of pure gold, worth $60, was picked up by Assel & Gross, while piping on their claim on Wolf creek. The quartz nugget found recently in the Fort Lane diggings, was crushed the other day and yielded $212 in gold. Savage & Slagle, mining on Savage creek, a few miles below Rock Point, have picked up several good-sized nuggets of gold this season.

BUSINESS LOCALS.

For sale, a well established profitable mercantile business, together with the lot of ground and store, on Main street, Bodie. Inquire at the Bodie NEWS office. *14tf

A partner is wanted in a butcher shop with a good established business. A practical butcher preferred. Must be a good business man. Enquire at this office. 6-6t

Apothecaries Hall is the place to buy your drugs.

The stages are coming in loaded, both from Virginia and Carson, and an average of from ten to twenty persons are added each day to our population.

The scarlet fever, in its most malignant form, prevails in Reno. Whole families are carried off by the fell destroyer.

Yesterday was uncomfortably disagreeable and blustery, and caused all those whose business would allow of it to keep close at home. Snow-squalls came up in the afternoon, and made the already uncomfortable weather almost unbearable.

Walker & Finley make their announcement under head of New To-Day, and proclaim themselves ready to dispense the very best of everything sold in their line. We can confidently endorse them as good men, and ready to perform all they claim in the advertisement. Thirsty persons, and those desiring a good cigar, would do well to call upon them, next door to Mono County Bank.

ALUM CREEK DISTRICT.

Purchase of Mining Ground by Capitalists—A 15-Stamp Mill to be Erected, etc., etc.

From Mr. Byington, who has been a long time connected with our mines here, we learn that A. J. Blair and John B. McGee, both of whom are large mining operators, have purchased a property called the Inter-Ocean Con., situated in Alum Creek District, 45 miles from Aurora, and paid a good round price therefor. The mineral found there is said to be plentiful, carrying mostly in silver, and the ledges are of considerable extent. John Collier, whom every Eastern Nevada man will remember as an expert and capable miner and mill man, made the report on the district through which the claim was sold, and that fact alone should be sufficent to give confidence in the future of the same. Assays from the samples of rock taken by him from there gave average assays of $70 in silver and $18 gold. It is intended to commence the erection of a 15-stamp mill at once, and it is anticipated that rock enough can be obtained to keep the stamps running indefinitely. The mine purchased has been developed to the present time by three openings, one of which is a tunnel the other two open cuts, and the amount of high grade ore said to be in sight is simply immense. There are other locations in the district, and an arrastra has been steadily at work on gold-bearing rock found there for a number of months, with most encouraging results. We are personally acquainted with both gentlemen who have made the purchase, as also with the expert whose report caused the sale of the property, and can safely say that they are all good, square men, at whose investment the people at Alum Creek should feel highly pleased. Our informant, in connection with Messrs. Swearinsen and Hannan, was one of the vendors and will soon visit the ground, when he promises us a more extended and precise report on the district.

A Field Day.

Sheriff P. B. Taylor was wonderfully busy yesterday. He had some two hundred summonses to serve on parties interested in the Waltz tract, which case is to be tried at the next term of Court. The summons reads: Andrew J. Waltz, Paul W. Bennett, Selden Hetzel and George A. Whitman, plaintiffs, vs. about two hundred others. The land in contest is described as follows, which description we publish for the benefit of those interested: Commencing at a stake at the southeast corner of W. A Wood's block, in the town of Bodie, in Mono county, aforesaid, and running thence in a southerly direction two hundred and fifty rods to a stake marked "S. E. Cor.;" thence in a westerly direction eighty (80) rods to a stake marked "S. W. Cor.;" thence northerly one hundredand sixty (160) rods to a stake marked "C.;" thence westerly eighty (80) rods to a stake marked "W. Cor.;" thence northerly eighty rods to a stake marked "N. W. Cor.;" thence easterly one hundred and sixty (160) rods to the place of beginning. The summons further goes on to say that the defendants "wrongfully and unlawfully and with force of arms entered upon the premises described, on the 21st day of September, 1878, ousting plaintiffs therefrom; and wrongfully and unlawfully still detain said land." The modest sum of $50,000, as damages, for the withholding of the land from plaintiffs, and $33,000 damages caused plaintiffs by the loss of the value of the rents and profits thereof, and for costs. This action will be defended by Messrs. Kittrell & Owen, who have been retained by the parties in contest. In the meantime real estate on the Waltz tract is not selling very rapidly, as people generally do not care to buy a lawsuit.

Good Hope District.

The *Times-Review* says the mining district of this name, which is situated on the Winnemucca and Cornucopia road, bids fair to become a flourishing mining camp before the summer is over. Four or five claims are being worked at present and many others have been located. The principal claims are the Silver Brick, Buckeye, You and I, and Aurora, from each of which some fine looking ore has been taken. One of the owners of the Silver Brick recently returned from a visit to his mine, bringing with him some fine specimens of horn and ruby silver. It was found in a cross-cut which was started on the 60-foot level of the mine, and is said to be an average sample of the ledge. No assay of it has yet been received. Some work has been done on each of the other claims, but not enough to form a correct idea of their value. One thing seems to be certain; a ledge of paying ore exists in that locality, and if a mine should be discovered, it will probably be a valuable one. Letters have been received from capitalists who seem anxious to invest in some of the claims, and there is already talk of building a small custom mill as soon as the warm weather commences. Every one who has visited the camp and made a careful examination of the mines seems to have a favorable opinion of them, and it would be by no means surprising, to see the rush over there, predicted by those who are familiar with the camp and its prospects.

Personal.

George R. Story, one of the pioneers of the new days of Bodie, and a mining man of long experience, is in town. We know him to be a good miner as well as a first-class man in whatever position he may be placed.

We passed a pleasant hour with our old-time friend, J. L. Greeley. Esq., last evening, at his law office. To us it was as pleasant a surprise as it was unexpected. Old Time deals gently with our friend, and prosperity smiles as usual on his efforts. May it continue to the end, say we, for a more worthy object could not be selected for Dame Fortune to shower her favors upon.

Wm. M. Bunker, the San Francisco *Stock Report's* mining expert, came up from Aurora yesterday, and left in the evening for his home at the Bay. Mr. Bunker has had long experience as a journalist, and has picked up much useful information during his short stay, which, we presume, will be given to the readers of the *Stock Report* on his return. His letters assist the district.

Dr. Deal informs us that L. A. Dougherty, Superintendent of the Bechtel and Champion mines is rapidly recovering from the effects of a fall received some days ago. The good news conveyed to him by telegraph that he had been made a father by the birth of a girl baby, which event occurred at Los Angeles yesterday, will have the effect to hasten his convalescence.

Our Water Supply.

With the steady increase of population here comes the question of the indispensable adjunct to human life—water. The winter season now passing away has been one of the mildest ever known in this county, the snow at no time having fallen to over five inches in depth. Usually at the breaking up of winter immense quantities of snow remained on the ground which, melting under the heat produced by the sun's rays, melt and the water is absorbed by the earth. Wells fill up and running streams continue for a long time under ordinary circumstances; but this season we may expect nothing of this kind to happen. The question of a supply of water is beginning to be a serious one and must, sooner or later, attract the attention of all parties residing here. The supply from wells will be exhausted before another winter is upon us, and some means must be devised by which a supply can be obtained. We hear of a water company being formed, but as to the truth of the rumor we are not advised, but hope it may be among the things of the future. Water is needed not only for drinking purposes, but also is absolutely necessary in case of fire, which calamity is likely to occur at any moment of the day or night. Whatever may be the result of the rumor in relation to a company being formed to bring water into town, we are satisfied the necessity for some action in the matter will soon be apparent to all.

Stove-Pipes.

We again call the attention of the proper officers to the matter of insecure and badly put up stove-pipes. In our daily walks about town we see dozens of these dangerous features of our mountain buildings that are not high enough to clear the roofs of houses, and are not secured by wire as they should be. Many of them are not riveted together, and by the constant motion given when the wind blows, are liable to become detached and cause fire. When Bodie burns to the ground, which seems almost inevitable, persons owning property will realize the danger consequent upon the carelessness which permits stove-pipes to be put up so insecurely. We hope this most essential matter may be attended too, and at once.

Attempted Suicide.

The Gold Hill *News* says: Last Saturday evening the wife of Zenos Johnson, engineer at the Overman, living on Telegraph street, west of Petaluma, attempted suicide by cutting her throat. She was in bed when her husband came home from work. He undressed himself and went for something to eat. His wife then got out of bed, ransacked his clothes, found his pocket knife, jumped into bed, covered herself up to the eyes, and made a dig with the weapon down from her neck in front and toward her bosom, grazing the jugular. The wound was a ghastly one and bled profusely. Dr. Hall dressed it. This is not the first time she has tried the experiment, and she declared she will yet succeed. She is probably a candidate for Stockton.

Skipped.

A man, calling himself A.M. King, came here a few days ago, represented himself to be a man of means, made a bargain for a livery stable and procured a lot of lumber from Mayberry & Hill—all on shape—and yesterday skipped the town—in fact "lit out" without saying good bye to his friends. He is a short, thick-set man, and from his looks appears to be a Mexican or Spaniard. We publish this item for the benefit of those who may meet him. There are parties here from whom he borrowed small sums of money "until the remittance got here," who would like to see him.

Furniture, Etc.

J. M. Abbott, the wide-awake furniture man, having moved into his new quarters, near the corner of Main street and Standard avenue, advertises his wares to-day. He will be ready at all times to attend to any job in the line of paper hanging, painting, etc., and being a complete workman, his work can be warranted to be first-class. We commend him to a fair share of trade in his line.

Started Up.

The Champion Mining Company have started up their works, after having remained idle for some time. By the flow of water coming down Green street, we imagine they are doing a great amount of work there, and will soon have the mine free of water. The Champion can be reckoned among our best properties, and we anticipate good results from their efforts at development.

Accident.

A man named Roze was injured in the Red Cloud mine yesterday morning. A pick handle struck him on the head while descending the shaft. Dr. Van Zandt attended the wounded man.

Do you want pure drugs and medicines, elegant toilet articles and fancy goods at low rates? Call at Apothecary Hall where you will receive polite attention and the full value of your money. Prescriptions accurately compounded, day or night, by a graduate of a College of Pharmacy.

Seigle & Co., No. 27, Main street, Bodie, are fitting up their new store in fine style, and opening their stock of cigars, tobacco, stationery and fancy articles, making a most elegant showing of saleable wares. Their doors will be thrown open for trade on and after Saturday next.

The Maryland Consolidated will put on a full force of men in a few days, when the work of opening up this fine mining property will be pushed with vigor. It may soon expect to be classed amongst the dividend paying mines of Bodie.

SPECIAL NOTICE.—Saloon keepers attention! A $2,000 stock. Selected brands Choice Cigars willbe soldat cost to close out cigar stock. If you want luxuries call at W. T. Hall's Clothing and Furnishing Goods Emporium, next door to the Bodie Bank, Bodie. *

We desire the people of Bodie to understand that we are prepared to do all sorts of job work, in the best style at low rates. Our job office is superior to any in Mono county, and we are prepared to do all kinds of work in a satisfactory manner.

Smith Bros., Main street, opposite Reinstein & Wolf's, General Merchandise and Commission House. All kinds of produce bought and sold. Consignments will receive prompt attention and quick returns. *11tf

F. G. Drake, assignee of Turner & Hughes, still offers the extensive stock of wines, liquors and assorted groceries, at very low figures for cash. Call early and examine. *7-tf

The Democratic Caucus nominated Colonel Sexton, who was a member of General Lee's Staff, as Executive Clerk of the Senate. The South has three of the four nominated.

BODIE MORNING NEWS

THURSDAY, - - MARCH 27, 1879.

ANOTHER STARTLING INVENTION.

A Whole Newspaper Telegraphed in Half an Hour.

We are enabled to lay before the readers of the *Post* this morning a piece of exclusive intelligence which will be found of intense and universal interest. It reaches us by the last mail from London, and indicates that the Old and New Worlds are about to hail the approaching dawn of cheap telegraphy on land and under sea between and throughout all the countries of the civilized globe, but more particularly across the Atlantic Ocean, between Europe and America. We learn that the American Cable Company of New York through its general Agent, who is now in London has just closed, signed and sealed one of the most important contracts that was ever connected with the subject of telegraphing, and by which the new company has secured the exclusive right to the use of a new invention, or process for sending messages by cables and otherwise. One party to the contract guarantees to send ten messages of twenty words each, per minute through the connecting wire between Paris or London and New York. This is the minimum speed stated in the contract; but it is said that at the maximum speed what could be sent in thirty minutes would be equal to the number of words contained in one number of the London *Times* or the New York *Herald*. And it is also asserted that by this process an entire number of either of the above-named journals could be dispatched through the cables from New York to London or Paris, or from London to New York, and be reproduced at those points in *fac simile*, on a stereotyped block or plate, complete and ready to be printed from, in thirty minutes, and at a trifling expense. This would make an average rate of speed of about 2,000 words per minute—*Boston Post*.

NONSENSE.

If your dinner-bell has lost its clapper, you can still have your napkin-ring.

A song heard by a hive—Be it ever so humble there's no place like comb.

Eggs are so cheap nowadays that they only bring a poultry sum.

There must be fewer life-saving stations. They are dangerous.

Give us the money of our fathers—our matrimony so to speak.

The boy that few people like to see—the plumber's bill.

"The good the gods provide"—Applause from the gallery.

A man's weather eye—The one he looks sheepish with.

It takes a plump ballet dancer to calve out a fortune.

A private box—A lesson in the "manly art."

The question of the hour—What time is it?

Doctors' charges— Their patients.
